# Q3

## POS THERMAL RECEIPT PRINTER

- Receipt/invoice/orders printer
- RS232+USB
- Excellence in design and technological content
- 80mm paper width/80mm diameter
- Auto-cutter 1MI cuts
- Black-mark management for self-alignment (receipts/invoices)
- Available in glossy white and glossy black
- Blinking coloured LED button
- Size: 140mm (L)x150mm (W)x117mm (H)

Q3 is the ideal answer for those who are looking for advanced performance and design.

The thermal head ensures excellent printing quality also with graphics and, at the same time, less consumption.

The cutter was created to optimize the performance of this product both in reliability and efficiency and it also meets even the most sophisticated operational requirements.

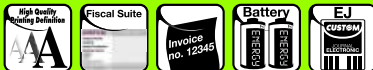

The elegant design, developed to perfectly integrate in all environments, is perfectly combined with the high tech-nological content.

As a matter of fact, it is equipped with three patented systems, including the automatic cutter with rotary blade (belt drive) that ensures maximum reliability and more than a million cuts.

Printing on 80mm-wide thermal paper, with front exit of sales receipt.

Serial/USB interface. ECS/POS compatible.

# KUBE II

## POS THERMAL RECEIPT PRINTER

- Receipt/invoice/orders printer
- RS232+USB/Ethernet
- Powerful and fast: 250mm/sec
- Prints high quality logo and coupon graphics
- 80/82.5mm paper width
- Well-built and reliable
- Auto-cutter 2.000.000 cuts
- Size: 209mm (L)x140mm (W)x152mm (H)

KUbe II POS thermal printer ideal for the retail and the hospitality industries.

It is the perfect solution for shops thanks to its compact, attractive and sturdy design and because it can be mounted either vertically or horizontally.

KUbe II is powerful and fast: it prints on receipts that are 80/82.5mm wide with an extraordinary print quality; the characters and graphics can be positioned in any direction. The 90mm large paper size allows a high degree of printing autonomy.

KUbe II is distinguished by unparalleled performance, robustness and reliability: it is equipped with a very high quality long-life print head (200km of printed paper), and the new cutter for automatic receipt cutting that ensures maximum functionality for more than 2 million cuts.

KUbe II prints logos and coupons at high resolution.

KUbe II is completed with accessories such as the "splash-proof" protection and sides available in different colours (red, silver and beige).

KUbe II is available with USB and RS232 serial interface or Ethernet interface, with drawer driver.

graphic: 2 logos (608x862 dots)

self-installing drivers (Windows WHQL certified):

WindowsTM 2K, 2K3, XP, 7 (+64bit support), Linux (32/64 bit), MAC OSX, OPOS, JavaPOS

Fonts: PC437, PC850, PC860, PC863, PC865, PC858 and special fonts like Chinese and Russian

barcode: UPC-A, UPC-E, EAN8, EAN13, CODE39, ITF, C DABAR, CODE93, CODE128, CODE32 and 2D barcode PDF417

KUbe ii Eth internal printing server.

Through a simple web interface it's possible to control the printer status, to set up the working parameters and the network setting.

It's possible to set up the email sending service to simplify the diagnostic operation and maintenance. It's available a support area where it's possible to download manuals, printing drivers and software tools but also to perform directly online the printer firmware upgrade.

- 1 external VGA
- 1 DC Jack
- 1 RJ-11 Cash Drawer (12V/24V),
- 1 Line-out
- Audio 2 x 2 Watt internal speakers
- External power supply DC 90W for Vision15 and DC 120W for Vision15 Turbo
- Size (printer not included): 361mm (L)x248mm (P)x337mm

Vision15 expresses the highest level of innovation, reliability and performance to answer to the most demanding requests of the retail market.

Designed with the maximum attention to guarantee to the point of sales the best compromise between technology and design, Vision15 is the ideal solution for all the retailers who use the most advanced management software.

The attention in the aesthetic details, such as the true flat touch screen monitor and the modern lines which characterize its shapes, perfectly combines itself with the sturdiness and the reliability guaranteed by the aluminium case and by the use of the most powerful industrial processors available nowadays. Besides, the operative efficiency is guaranteed by the SSD (Solid State Drive) technology of the hard disk which matches high performance with low energy consumption. The resistive touch screen monitor has a slope up to 90° allowing the most correct use according to the point of sale height and lighting.

Available as accessories a backlit 20x2 LCD display or as an alternative an 8.4" or 9.7" VGA monitor ideal for the multimedia communication to the customer. As operator and/or customer identification accessory is available a triple track badge reader.

Available in two versions: Vision15 Pine View Dual Core 1.8Ghz processor  
Vision15 Turbo Pentium G260  
2.6Ghz processor on Sandy Bridge architecture for the management systems which require big calculation resources

# J ONE/A

## PORTABLE BATTERY POWERED ECR

J one/a is a long lasting battery powered ECR approved for portable applications, easy to use and with reduced footprint. J one/a is studied in detail to allow maximum practicality of use: the membrane keyboard assures water-resistance and functionality, a reduced weight makes it easier to be transported; the thermal printer operates at a 100 mm/sec speed for 57mm-wide tickets; the assisted paper load mechanism allows replacing the roll in a very simple way. Equipped with 30-key keyboard, arm processor and SQL database and back-lit graphic display (2x20 characters operator/customer), J one/a is the perfect match of reliability and performance.

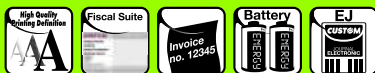

- Ni-Mh 7.2V 2100 mAh Rechargeable BATTERY
- Printing AUTONOMY 60 mt of paper

- Type-approved for street vendors
- Internal battery power supply
- Assisted roll replacement system
- Waterproof membrane keyboard
- Back-lit graphic-type operator/customer display, 2x20 characters
- Internal SQL database
- Electronic journal in MultiMedia Card/SD
- Receipt customisable graphics

### MAIN FEATURES AND CAPABILITIES

- ARM processor 266 Mhz
- Electronic journal on MMC and/or SD up to 1.000.000 lines (about 260 rolls)
- Internal memories and DGFE on standard USB Mass Storage Protocol
- Alphanumeric integrated keyboard with 30 customisable positions
- Backlightened graphic display (2x20 characters operator/customer)
- 57 mm high resolution thermal printing
- 1 USB port and dedicated drawer port (6, 12, 18, 24 Volts)
- Remotely programmable scrolling message
- 100 programmable departments, 5 of which are directly on keyboard
- Department groups for aggregate statistics
- 300 credit clients with debt collection
- Management of cash fund and cash withdrawals
- 30 forms of payment, fully customisable
- 8 price modifiers (discounts and surcharges)
- 10 VAT rates
- VAT groups for aggregated statistics
- Fiscal, financial, statistical and historical sales reports
- Graphic logos on receipt header and footer
- Size: 245mm (L) x 235 (W) x 115mm (A)

Fiscal suite: self-installing software package that can be updated remotely via Internet which allows targeted analysis of the data in the fiscal journal, the programming of graphics and logos on the receipts, the PC programming of the keyboard.
